

## The Honouring

### Group Exhibition

Vernissage on Friday, December 7, at 5 p.m.  
at Méduse, 591 rue Saint-Vallier Est, Quebec City

Quebec City, November 22, 2018 – Folie/Culture proudly invites you to the vernissage for the group exhibition The Honouring on **December 7 at 5 p.m.** at **Méduse** (591 rue Saint-Vallier Est, Quebec City).

This performance/celebration will showcase work made in creation workshops held in four mental health groups in the Quebec City region. Artist **Josée Landry-Sirois** and art historian **Jeanne Couture** invited participants at these workshops to create art that engages with the theme of pride. Focusing on this theme, their creations took the form of medals, drawings, and writings.

Unveiled for the first time at this exhibition, these works stand as personal testimonies representing the diverse conceptions of pride found among the 28 participants. We invite you to come and take part in this colourful event that honours creative reflection and unique perspectives.

This project is a collaboration with **L'Amarrage**, the **Centre communautaire l'Amitié**, the **Centre de parrainage civique de Québec** and the **Centre social de la Croix blanche**.
